

## DIRECTIONS TO SCAIFE HALL LR3

Scaife Hall is located directly across the street from the Petersen Events Center. If you enter Scaife Hall from Terrace Street (across from the Peterson Center), you will be on the 4th floor, near the Medical School Lecture Rooms (see map below).

There is a side entrance to Scaife Hall off DeSoto Street, which is on the second floor. If you enter here, walk down the hallway to the escalators or elevator (near Falk Library), and proceed to the fourth floor.

Scaife Hall is connected to Presbyterian Hospital on the third floor. If you enter Scaife Hall from the Hospital, take the escalators to the fourth floor. Note that bridges connect all of the biomedical science towers with the third floor of Presbyterian Hospital, so you may reach the lecture room through a large variety of entrances.

If you enter the biomedical science tower lobby from Lothrop Street, take the elevators in the Eye and Ear Institute or BST-South to the third floor, and take the bridge to Presbyterian Hospital. Take the long corridor past the elevators into Scaife Hall, and then take the escalator to the fourth floor.
